ABOUT US

Excel Security Solutions AG, Switzerland is a nationally and internationally operating, independent risk consultancy and security services company.

Excel Security Solutions AG embodies the Swiss concept of quality. We strive to offer our clients the highest quality, bespoke solutions in order to satisfy their requirements. We do this with a 'can do'-attitude, solid professional knowledge and vast international experience. We pride ourselves with the highest standard of commitment to act with honesty and integrity without compromising the level of service we offer.

Excel Security Solutions AG manages risk for their clients by finding unique solutions that are specific to each client's needs. Our clients include private and corporate global organizations, high-net-worth individuals, wealth managers, family offices and law firms in the private sector, as well as NGOs, government entities, and other geopolitical organizations in the public sector. We recognize our clients require unique solutions – therefore we offer customized services and innovative solutions through our dedicated team and trusted partners.

Our workshop & training department is certified by:

PRIVATE

Some call it logistics, we call it lifestyle management

Excel Security Solutions is the leading provider of security services to private individuals and families in Switzerland. With our concierge lifestyle management services, we provide a variety of non-security services which enable our clients to enjoy a more manageable and more comfortable life. With experience in protecting some of the most influential people across the world, we offer a tailor-made service, allowing our clients to achieve a streamlined, economical and efficient solution while ensuring their privacy, safety and comfort. Depending on the threat level and location, we can provide armed services.

Our services include:

Residence Security
Alarm/Technical Systems
Alarm Intervention
Retail Security
Event Security
Key Holding

EXCEL
Security  Solutions

CORPORATE

Risk Management

We conduct in-depth security surveys and vulnerability assessments, identify liabilities and recommend measures that will ensure the security and safety of properties, human assets, assets, information and reputation.

Travel Security & Logistics

Our comprehensive travel security services create a secure environment for you, your business activities and your employees when on the move worldwide. We focus on security and safety as well as on efficiency and comfort for our clients. We recommend an advance reconnaissance ahead of the client's journey in order to gather and analyse important security and safety information, covering areas such as personal safety, potential risks, airport and location survey, communication, emergency situations management, cultural and political information, etc. If required, we organise and coordinate in-country security teams.

With numerous years of experience in working with an international, sophisticated clientele, we have the connections and knowledge of assisting you with travel logistics, such as property rental, hotel and restaurant booking, private yachting, private aviation, vehicle rental, sports activity coordination, etc. Our travel logistics coordinators are responsible for the day-to-day management of the client's activities while travelling; focusing on the comfort of the client and his entourage.

CLOSE PROTECTION

Our close protection agents do more than just accompany and protect the client. They blend into the client's environment effortlessly, thereby remaining discreet and keeping a low profile. Our global network of vetted partners must comply with our high standards wherever clients require our support. In addition, we also provide logistics, and medical support.

We provide skiing close protection agents for VIPs and high-net-worth individuals and their families, who come on vacation to Switzerland and France's fabulous ski resorts. Our male and female skiing bodyguards are familiar with all major resorts and are experienced skiers.

Close Protection in Hostile Environment

Through an established network of reliable contacts, we provide close protection worldwide. We can operate in fragile and hostile environments. Excel Security Solutions and all our contacts must adhere to the standards of the International Code of Conduct Association (ICoCA), which was created to promote the responsible provision of security services and respect for human rights and national and international law in accordance with the Code. We also adhere to the Swiss Federal Act on Private Security Services Provided Abroad (PSSA).

SECURITY DRIVERS

Our security drivers are trained in surveillance detection techniques and can recognize potential threats before they manifest into dangerous situations. The role of the security driver is to ensure our clients get from one location to another in a safe and timely manner. Depending on the country and its laws, our agents can provide armed services.

Chaperone Services

One of our agents will protect the younger members of your family. The chaperone service is geared for teenagers and young adults. Whether they are going out in the evening in a big city, moving away to study, taking a weekend break from school, travelling on a gap year, or on a summer holiday with friends. The agent, either male or female depending on the need, will be close enough to intervene, yet remain at an appropriate distance so as not to intrude into their private lives.

EXCEL
Security  Solutions

A vertical photograph on the left side of the page shows a hand spinning a globe. The globe is mounted on a wooden stand and has a map of the world on its surface. The background is dark and out of focus.

INVESTIGATION

Global Investigation

Excel Security Solutions have cultivated a vetted and trusted network of investigators worldwide. We mitigate fraud risks and conduct investigations to identify vulnerabilities and threats to our clients' business and private lives. We take our clients' discretion and confidentiality as our number one priority. We can count on many long-term clients, such as insurance agencies, banks, manufacturers, service providers, public authorities, lawyers and private clients.

Due Diligence

We conduct due diligence on corporate and individual clients with the objective of developing a comprehensive profile of subjects or corporations of interest. In addition to intelligence gathering, we conduct research by following social media, blogs, news media, and Deep Web networks, providing quality insight into real-time public perception.

Background Checks

Excel Security Solutions provides pre-employment background checks to give you peace of mind that you have done everything possible to protect your family and assets. Employment background checks are a simple and effective measure to help mitigate the risk of criminals infiltrating your home. A dishonest employee is a risk to your family, your business, your fortune and your reputation. A pre-employment background check can help you ensure that the person you are hiring is who he claims to be.

TECHNICAL SOLUTIONS

Technical Surveillance Counter Measures

Excel Security Solutions partners with established TSCM (Technical Surveillance Counter Measures - Bug Sweeping) providers in Switzerland and worldwide to offer you the best opportunity to detect eaves-dropping and protect your organization or yourself from a breach of security of your proprietary data. Our services are designed to provide the highest-level counter-eavesdropping protection to both corporate and private clients.

Cyber Crime Solutions

We offer a wide range of products, solutions and services that have specifically been developed to combat potential threats. We provide comprehensive security solutions, technical services and high-quality advice.

We develop a tailor-made cyber program to fit your specific requirements, providing innovative solutions as your life and your organization continue to evolve.

SECURITY TRAINING

Security Awareness Training

Employees are an organization's greatest asset, yet at the same time represent the greatest risk. It is imperative to be aware of the potential dangers that your employees face due to an increase in violent crime, terrorism, anti-social behaviour, and racial and sexual harassment in their everyday lives and when working or travelling for your organization.

Our Security Awareness Training workshops are designed to target all employees working and travelling abroad. We work with media, diplomatic corps, airlines, United Nations and governmental organizations, charities and non-governmental organizations (NGOs), multinational companies, and international schools. Workshops are also suitable for accompanying spouses and family members.

Our workshops include:

Travel Security Training
Hostile Environment Awareness Training
Active Attacker Incident Training
Kidnapping Risk Reduction Training
Tiger-Kidnapping Risk Reduction Training
Hospitality Security Awareness Training
Conflict Management Training

DIPLOMATIC SECURITY

First impressions count. Our approach to diplomatic security is to be the first line of contact with visitors to your embassy, consulate or ambassador's residence. Whether the visitors' intentions are good or bad, our agents will handle any situation in a professional and measured manner.

In addition to static guards, we provide close protection and security drivers for the diplomatic corps and high level delegations on visit.

Our agents are trained to be professional, security-aware, well-presented and friendly, yet firm. We provide our services, so our clients can safely focus their resources on their diplomatic mission.

LIFE SKILLS

I Am My Bodyguard

I Am My Bodyguard is an interactive, interesting and fun Life Skills course designed specifically for young children to teach them to protect themselves against sexually motivated crime.

Excel Security Solutions AG offers this workshop in partnership with Innocence in Danger, an international non-profit organization fighting against all forms of sexual abuse of children.

Fight like a Girl! – Life Skills for Women

An experiential workshop, providing training in personal safety and awareness. Essential Life Skills for women of all ages to empower mental and physical skills for effective self-defence.

Conflict Management

A conflict management / self defence workshop for teenagers from the age of 16 years and young adults to learn and experience how to mitigate conflicts and how to realistically protect oneself in the event of an unfavourable situation.

Who should attend this course?

This course was developed for adults and adolescents. Attendants will learn how to explore unfamiliar environments safely and how to protect themselves.

GSTAAD SECURITY

Chalet Security

We provide residence security services tailored to your specific requirements. Services we offer include patrols around your property, access control during construction and static residence security guards during the night and/or day. We can also provide a dedicated residential security team (RSO) who are trained to monitor detection systems, manage access control, deter intrusion, and respond to emergencies.

Security Systems

We can design a system segment or a fully integrated system that includes Access Control, CCTV Surveillance, Intrusion Detection Systems, Safes and Safe Rooms.

Intervention

Combining your alarm system with our alarm intervention services in the Saanenland region gives you peace of mind when you are at home or when you leave your property. Our intervention team is on standby 24 hours a day, 365 days a year.

Our services include:

- Close Protection**
- Chaperone Service**
- Intervention Services**
- Residence Security**
- Retail Security**
- Event Security**
